DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3,5,7,10-17,19-23,25,26,28-31 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art cited does not teach the following:
 - Albou (2002/0003709) although teaching a headlamp with an elliptical reflector with a convergent lens and a mask in the path of light between the light source and the lens, the mask adapted to occult part of the light flowing between the reflector and the lens and being disposed entirely above the second focal region of the reflector and among other shapes, the mask may be in the form of a triangle, mainly the mask 42 extending above the straight segment joining the edges 43a and 43b, Albou does not teach the foreground shield as taught by the instant invention mainly the foreground shield wherein the shield has two sides that taper up from a bottom portion of the foreground shield to form a rectangular shaped shield. This differs from Albou in that the instant invention teaches the entire foreground shield in the shape of a triangle as opposed to the portion 42 of Albou located at the end of riser 41.
 - Stoney (1,557,277) teaches a triangularly shaped lip in the path of the light beam emitted and reflected from the lamp 2 and reflector 1, Stoney does not teach the combination of first and second high and low beam compartments with a foreground shield located in low beam compartment which has two sides that

taper up from a bottom portion of the foreground shield to form a triangular shaped shield.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
